DecoflexTM
UNIVERSAL

INDOOR
SPORTS FLOORING

The discerning sportsman will prefer the cushioned Decoflex™ Universal Sports Surface because it has been designed for the most demanding sports conditions. The Decoflex™ Universal Sports Surface is unique. By incorporating a resilient black rubber base mat that can be supplied in a different thickness, the Decoflex™ Universal Sports Surface can be optimised for just about any sport requirement. The top surface is always made of a polyurethane wear coat combined with a polyurethane top coat ensuring optimum playability and durability.

The superior quality of Decoflex™ Universal Sports Surface is not only appreciated in sports centres - the surface is a great alternative as a resilient, sound absorbing multi use floor for dance halls, aerobic rooms, school halls and catering facilities.

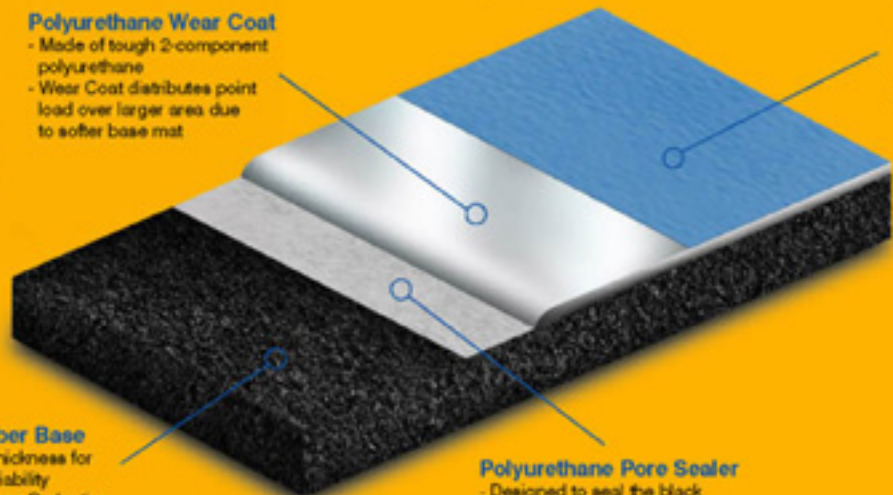

Decoflex™
UNIVERSAL

System Build Up

Polyurethane Wear Coat

- Made of tough 2-component polyurethane
- Wear Coat distributes point load over larger area due to softer base mat

Black Rubber Base

- Consistent thickness for complete reliability
- Excellent Force Reduction
- Different thickness allows for maximum choice of desired sport

Polyurethane Pore Sealer

- Designed to seal the black rubber base mat
- Excellent compatibility with Polyurethane Wear Coat

Polyurethane Top Coat

- Made of tough 2-component aliphatic polyurethane
- Excellent abrasion & marking resistance
- Low & easy maintenance
- Wide range of colours

There is no question that the Decoflex™ Universal Sports Surface is the most economical due to its long life cycle and low maintenance. Not only that, the use of highly flexible compounds ensures a high level of noise abatement, thus creating a quiet environment.

Thickness

To suit the requirement for the intended sport. Generally, this varies from 5mm to 14mm. Contact Rephouse or your dealer for clarification.

The Decoflex™ Universal Sports Surface should be installed on a clean, dry, smooth, sound substrate. Best results are obtained when an experienced Rephouse flooring technician performs the products installation. A complete guide is available upon request.
