HIGH IMPACT T

Feel the difference.

Neoflex™ High Impact Tile

These 45 mm (1.75") thick robust, resilient rubber tiles are installed in free weight areas and designed to attenuate the impact of heavy free weights that thinner surfaces cannot achieve. Neoflex™ High Impact Rubber Tiles provide superior sound and vibration insulation ensuring that areas below, around and above the gym remain quiet.

Color Transfer	BS 1006 A03	Pass
Flammability	ASTM D2859	Class 1

Unbounded Opportunities.

Combining great ideas, immaculate design, and sheer functionality to create innovative solutions, Rephouse floors are available in many varieties other than just Neoflex™. We provide flooring solutions for Commercial, Sports, Equine, Play & Recreational, Industrial and Ballistic applications. To find out more about these floors, contact your Rephouse partner, who will be happy to advise and provide you with complete information. Also, visit our web site at www.rephouse.com for the latest updates.

Rephouse Recycling.

Your Rephouse floor is the product of a comprehensive recycling concept. But what exactly does that mean in practice? It means that all the requirements of recycling are taken into account from the start, in the initial development of the floor. One example is careful material selection designed to preserve resources and to ensure efficient recycling compatible with the environment. Each Rephouse floor is designed and built for simple economic recycling after its long running life. Since 1990, we have been collecting the know-how required for this purpose, focusing on improving the high standards of quality, performance and environmental care we are known for. Please contact your Rephouse partner on all matters regarding your end-of-life floor. They will be happy to help.
